OBJECTIVE

Data Analyst with 2+ years of experience in business intelligence and automation. Seeking to leverage strong skills in **SQL, Power BI, and Azure Synapse** to build efficient data pipelines and deliver actionable insights. Eager to contribute to a data-driven team and continue learning in a fast-paced, **cloud-oriented environment**.

PROFESSIONAL EXPERIENCE

Data Analyst | Infosys Ltd. | Hyderabad, India |

Jan 2022 – Dec 2023

- Developed and maintained **6+ Power BI dashboards** for business operations, increasing reporting visibility and **reducing manual reporting time by 40%**.
- Built **scalable SQL queries** and **automated ETL pipelines** to process **structured and unstructured data** from multiple sources for **KPI monitoring**.
- Automated repetitive reporting tasks using **Python** and **Google Apps Script**, reducing manual effort by **50%** and improving **delivery timelines**.
- Performed **data cleaning, validation, and transformation** to ensure **consistency and reliability** across business units.
- Collaborated with **cross-functional teams, product owners, and engineers** to streamline metrics and implement **data governance** best practices.
- Created and maintained **data documentation**, including data dictionaries and pipeline architecture diagrams, to improve onboarding and cross-team collaboration.
- Integrated data sources from **Salesforce**, Excel, and internal SQL databases to build unified datasets for performance analysis.
- Optimized **SQL queries** and **Power BI datasets** to improve **dashboard refresh time by 30%**, enhancing user experience.

PROJECTS

HEALTHCARE DATA ANALYSIS AND VISUALIZATION

- Processed 2M+ synthetic healthcare records using **Azure Synapse Analytics**.
- Built **ETL workflow** using **Python (Pandas, NumPy)** and **Azure Data Factory**.
- Created **Power BI dashboards** to visualize KPIs like **patient recovery rate** and **treatment efficiency**.

SALES ANALYTICS PIPELINE AND DASHBOARDING

- Built an **automated pipeline** using **SQL** and **Azure Data Factory** for daily sales data across 4 regions.
- Aggregated and transformed data in **Azure Synapse** to calculate KPIs.
- Created **Power BI dashboards** showing **trends, top-selling categories, and regional profit margins**.
- Reduced **manual reporting time by 90%** via scheduled refresh automation.

EDUCATION

MASTER OF SCIENCE IN COMPUTER SCIENCE

May2023 - Dec 2024

University of Central Missouri | GPA: 3.4

- Relevant Coursework:** Data Analysis, Machine Learning, Data Visualization, Cloud Computing, Database Systems.

SKILLS

- Languages & Tools:** SQL, Python (Pandas, NumPy), Google Apps Script, Excel (PivotTables, Charts)
- Data Platforms:** Azure Synapse, Azure Data Factory, Databricks, BigQuery, Snowflake
- Concepts:** ETL, KPI Reporting, Dashboarding, Data Cleaning, Data Warehousing, Data Modeling, EDA
- Visualization:** Power BI, Looker Studio

CERTIFICATIONS

- Google Data Analytics** – Coursera
- Microsoft Certified: Azure Fundamentals (AZ-900)**
